Stretch your programming dollars!

Got Teens?

Get immediately implementable program ideas for zero-minimal budgets, successful events that will bring teens to your library and keep them coming back.

Based on the [recent YALSA book](#), this webinar will show you how you can create and implement cool teen programs for less than \$100. Without letting budget cuts or burnout get in the way, teens in your community will be awed by what you offer @ your library and you'll have all the tools you need to get new programs built, marketed, and measured with success.
